

GQ 2019

10th International Groundwater Quality Conference

9-12 September 2019

University Academic Hall, Liege (Belgium)

<http://aimontefiore.org/GQ2019>

GQ is a triennial conference dedicated to Groundwater Quality. The conference is returning to Europe after most recently being held in Gainesville (USA) in 2013 and Shenzhen (China) in 2016. The theme of the 2019 edition is *Groundwater quality in the transition between rural and urban environments*, it will focus on the need to protect, manage, repair and sustain groundwater quality in growing urbanized environments. GQ 2019 will bring together in Liège (Belgium) between 250 and 500 researchers, industry, regulators, contractors, consultants, planners and water supply agencies to address the important issues related to groundwater quality in this context. Your sponsorship is important for the participants. In addition, sponsorship will also be used to encourage participants from developing countries to take part in GQ 2019.
